

## **Standards of Satisfactory Academic Progress** (updated and effective 11-18-2021)

In order to maintain satisfactory academic progress a student must:

1. Maintain a "C" average (80%) or higher;
2. Complete their course of study within 150% of the originally scheduled course length in weeks.

Each student's progress will be reviewed at 450 scheduled hours.

*Students who receive Title IV Federal Student Aid will have their progress reviewed by the Financial Aid Officer prior to each Title IV aid disbursement to insure the student is adhering to their course requirements pertaining to satisfactory academic progress.*

If a student fails to maintain academic progress the student will be administratively withdrawn or terminated from the program. There is NO warning or probationary period or option.

A student, who was dismissed from school because of their failure to maintain satisfactory academic progress, or for infraction of school policies, may be re-admitted at the discretion of the School Director and with the recommendation of the LPN faculty. Such students will generally be re-admitted on a probationary status, the terms of which will be defined prior to class start on an individualized probation form.

Such periods of non-enrollment are not counted toward the student's maximum time frame for completing course requirements (150% of the original course length).

A student shall not be re-admitted after (3) attempts to complete their program.

A student may be re-admitted so long as they were maintaining satisfactory academic progress at the time of their withdrawal.

Upon re-enrollment, the student will be granted credit for present time for completed course work for which the student had earned a "C" (80%) grade or better.

Students who are required to repeat courses within their program of study may do so. Should the student require additional time to repeat any segment of their course, additional tuition will be assessed. Any incomplete course work will have a negative impact upon the student's average. Some students may be required, as a condition of enrollment, to attend non-credit remedial courses. While the student's progress in such courses is monitored by the institution, the student's non-credit remedial work has no impact upon the student's maintenance of satisfactory academic progress.
